

ClearHand Mass Hand Sanitization Kiosk

To protect and prevent from communicable diseases such as Covid-19 and others and to maintain public health at large, mass hand sanitisation is necessary at large and important public places, corporate premises, and residencies. After thorough research and engineering and sensing dire need of the customer ClearHand Mass Sanitisation Kiosk is developed for cost effective, durable, and quality service.

USPs

1. Automatic mass hand sanitization
2. Patented Ultra-Mist Technology- More than 80% saving of sanitiser.
3. 5-7 times less power Consumption than hand air dryer (1-unit consumption for 20,000 sprays), largest sanitiser storing capacity in the world in mobile mass hand sanitiser dispensing kiosk category.
4. Sanitiser flow upward from container towards spraying nozzle
 - a. To control flow and quantity precisely
 - b. Firesafe enclosure for electrical and electronic components
5. Control of quantity and time of sanitiser mist
6. Optional feature of IoT (Internet of Things) to monitor sprays count, sanitiser level and manage inventory of sanitiser.
7. High quality and reliable mechanical, electrical and electronics components.
8. Easy handling and logistics
9. Available in beautiful colours and graphics to suit your premise.
10. Decrease in load of housekeeping service.
11. Return on Investment (RoI) in just 3 months.
12. More than 50% saving in tissue paper, water, and electricity.
13. Secure & safe from fire hazard
14. No special provision / construction required to install as in the case with the wall mounted dispensers (drilling holes in walls)
15. Maintenance free kiosk, durable metallic body, quiet operation, aesthetic design for your architecture.
16. Limited Warranty Period: 1 year (For manufactured defects)
